Marwan – For The Children in Palestine

In Mai 1998 Birzeit University and Khalil Sakakini Art Center organised in cooperation with the Goethe Institute Ramallah an extraordinary exhibition showing 75 pictures of the artist Marwan Qassab Bashi –originally from Syria but living and working in Germany for more than 40 years.

Marwan donated this exhibition with the title "For the Children in Palestine" to the Birzeit Universtiy and the Sakakini Art Center as a symbol of his deep relation to Palestine as well as his strong belief of the bright future of Palestinian children.

The Birzeit University and the Goethe Institut Ramallah are pleased to show this fascinating exhibition in various places in Palestine aiming at building as well as expanding the relations between various art and cultural centers in Palestine.
